

Modern Technology for Single-Family Offices

What type of family office would benefit from Addepar? Those with complex portfolios (for which Excel alone does not suffice), sometimes including:

- Diversified asset classes, including alternative investments
- Complex legal entity ownership hierarchies
- Multiple custodians
- Multiple managers
- Multiple currencies

“Addepar removed the massive challenges we faced before. We can now run a performance report across any entity, make templates for efficiency, or customize an *ad hoc* report whenever we want - it’s very easy. It makes analytics so much faster, more reliable, and simple.”
