

## Company Overview

Founded in 1995, Eze Castle Integration is the market leader in strategic IT managed solutions, complete cloud services and cybersecurity protections for the financial industry. More than 650 firms worldwide rely on our services and premier cloud platforms.

With Eze Castle Integration, your firm gains access to the industry's smartest technology professionals, proven technology solutions and a partner focused on making technology an enabler for your firm. We know the financial industry and the technology that powers it.

**Eze Cloud Solutions** include private and hybrid cloud platforms that deliver the applications, connections and performance the financial industry requires, all supported by our award-winning service team.

Our **Fully Managed IT Services** combine quality, timely and professional support as well as 24x7x365 global help desk access.

**Eze Cybersecurity Solutions** cover the full spectrum of protection from implementing layers of security to plan development, employee training and simulated testing programs.

**Eze Disaster Recovery & Business Continuity Planning Services** help ensure that our clients' business operations can resume quickly and seamlessly in the event of an outage or disaster.

With every service Eze Castle Integration provides, our team aims to be a client's technology operating partner focused on building a long-term relationship.
