

# Protect high-profile individuals and their families — everywhere

Ontic's Family Office solution gives teams that protect high-profile and high-net-worth individuals (HNWI) with an elevated risk access to critical intelligence — anytime and anywhere — to proactively monitor threats and keep principals and their families safe at the office, at home or on-the-go.

## PROACTIVELY MONITOR AND MANAGE POTENTIAL THREATS

Keep principals, their family and assets safe no matter where they are with a program to proactively identify and mitigate risks, and stay ahead of threats to ensure there are no surprises. Actively monitor your persons of interest (POIs) and their activities and stay informed when on-the-go with mobile capabilities.

## CONNECT THE DOTS FASTER

Ensure the safety of your principal by gaining visibility of potential risks surrounding the people you protect across social media, the dark web, real-time news, human observations and more. Spend less time sifting through social media and other web sources for potential threat indicators and focus on critical signals. Maintain an up-to-date and comprehensive threat database for a holistic view of threats — all in one place.

## PRIORITIZE WHAT MATTERS

Manage, surface and protect against physical security threats with a single source of data, including real-time awareness of threatening individuals and their geographic and person associations. Easily share status reports and updates to build trust with principals and instill confidence in your program.

## DEEP EXPERTISE AND ONGOING SUPPORT

When your team needs assistance beyond the technology solution, Ontic's experts are a force multiplier for keeping your principals safe. From hydrating POI profiles to travel and event support and more, Ontic's Security Intelligence team and dedicated Success Managers serve as an extension of your team.

**58%** OF FAMILIES

said they experienced a greater or much greater level of personal risk exposure in the last 3 to 5 years

*It's not just the platform, but the Ontic team — they become a partner in protecting our principals. The term 'force multiplier' holds true.*

## A TRUSTED PARTNER FOR TECHNOLOGY AND EXPERT SUPPORT

### EXPERTISE

Relevant, proven expertise for ongoing support and on-demand assistance

### TECHNOLOGY

A platform configured to optimize program health and team success

### ONGOING SUPPORT

Dedicated, trusted advisors serve as an extension of your team

## A MODERN FAMILY OFFICE SECURITY PROGRAM TO PROTECT WHAT MATTERS

Build a program that enhances your principal's life and proactively identifies risks, rather than simply offering physical safeguards. A modern program allows your team to strike a balance between protecting principals and their families from risks and allows them to maintain their lifestyles while not impeding convenience.
