

SEI ARCHWAY

What if there was a single, integrated solution for managing complex wealth information?

SEI Archway's award-winning technology platform has been unifying the accounting, investment management and reporting operations for family offices and financial institutions for more than 15 years.

Designed to handle complex partnership, portfolio and corporate accounting alongside bill payment, performance measurement and multi-asset class data aggregation, private wealth management firms partner with SEI Archway to streamline and enhance their internal operations.

By simplifying the way in which day-to-day tasks are completed, SEI Archway empowers private wealth management firms to more efficiently and effectively serve their ultra-high-net-worth clients.
